As long as you know the BCC cannot vote on it tonight.

To ; County Commissioners

As the City manager has noted below, she and I had agreed to recommend to our respective Commissions, that we eliminate the Parks & Recreation Differential Fees by the County paying the City \$125,000 on an annual basis.

I plan to bring this issue up under my time on the agenda.

Gentlemen:

Since we did not get to have our scheduled Mayor/Chair meeting due to the extended Innovation Park discussion with the Tallahassee Democrat Editorial Board, we did not get to talk about the Parks and Recreation differential fee. I know this issue was of concern to both Commissioner Grippa and Mayor Marks as one of several issues you were determined to resolve. At our last conversation, P.A. and I agreed on a dollar figure of \$125,000 to eliminate the differential fee. Although the actual dollar figure is \$180,000 and the county has budgeted \$90,000, the city has determined that the \$125,000 would pay for the differential for all youth fees. Taking into consideration the staff time involved in the administration and other pertinent issues, I advised the County Administrator that I would recommend to the city commission that the \$125,000 be accepted as full payment to eliminate the differential fee totally. Just in case you wished to act on this issue today or in the near future, I wanted to bring it to your attention. Please feel free to contact me if I can provide additional information. Regards-- Anita Favors
